Blinking white light flew upward, then started a pendulum-like motion for 20 min. Object disappeared by shooting straight up at a terrific rate of speed.

11. COMMENTS

1. Conflict in TWX on length of sighting (2330Z to 0030Z) and ("object seen for 15 to 20 minutes").

2. Description sounds like balloon, but time doesn't coincide at all with scheduled launches.
